Please the U.S. Department of Justice scale of economy is over the top in the Terry Bollea sex tape settlement of \$140M = \$55M economic injuries + \$60M emotional distress + \$25M punitive damages. In comparison a woman's concern for virginity, celibacy and cases of rape for sex is considered a joke when applied to a man. When a woman wants sexual intercourse, a man is to oblige her without denial. Man's sensitivity to emotions hardly registers in comparison to a woman's feelings. For guys food is on the same emotions level as sex.

Terry Bollea when performing risky promiscuous sexual behavior in any instances is responsible to protect against any form of exposure. Terry Bollea is accountable for the risky actions and suffers the repercussions when public exposure happens. Hire security to create a safe environment when performing risky behaviors requiring effort to keep safe. Tells everyone risky unprotected sexual behavior leads to blind results with unknown consequences. To protect against pregnancy and STD (sexually transmitted diseases) use a condom during sexual intercourse.

Terry Bollea is an intimidating person, in public when he markets himself as Hulk Hogan on radio, TV and social media, Hulk Hogan personality benefits from physical promotional stunts. Terry Bollea negated to protect the image of Hulk Hogan in the risky behavior for sexual pleasure, production, editing and broadcast of the sex tape. Accountability and responsibility is required by all human beings behaviors. Terry Bollea used the government in a legal case; where he had the choice of doing right and wrong. By agreement Pro Wrestling paid Terry Bollea for the actions of Hulk Hogan, people go to jail for paid sex.

Anyone involved in the sex tape on social media need a phycologist not the U.S. Department of Justice. Terry Bollea, Heather Cole, Bubba the Love Sponge, Gawker founder Nick Denton and Editor AJ Daulerio are adults. Florida State Court Circuit Judge Pamela Campbell knows the U.S. Department of Justice extended involvement was a benefit to Hulk Hogan profiteering of the Media hype. Terry Bollea pubic economic claim of a sexual act record on tape distorts the value of people in death, illness and physical/mental injury cases. Thank you in Advance.

Sincerely Brian K. Radtke

Ps

The U.S. government's requires military personal to follow presidential orders regardless to risk of life. In the Vietnam peninsula U.S. military personal endured the exposure to Agent Orange defoliant used to fight the war. In one year; 1969, a half million U.S. troops were stationed around South Vietnam. Agent Orange exposure to the U.S. military troops caused unknown health issues. The U.S. Department of Justice out of court settlement was \$180M for U.S. Military personal involved with Agent Orange defoliant exposure during the Vietnam War. When veterans followed orders, privacy was taken away, replaced by the risk of death. What is the scale of economic equality for the Vietnam veterans told to give up privacy and safety for this land of ours?
