**WORLD EXCLUSIVE**

In a shocking world exclusive, The ENQUIRER can reveal that wrestling superstar Hulk Hogan has been caught red-handed on video having sex with the wife of his best friend!

The hidden camera sex tape shows Hulk, whose real name is Terry Bollea, enjoying some afternoon delight with 37-year-old Heather Clem, the ex-wife of radio shock jock Todd "Bubba the Love Sponge" Clem, according to informed sources.

What's worse, the X-rated tryst allegedly took place in Bubba's marital bed!

Hulk, 58, served as Bubba's best man at his wedding to Heather, and the grappler stayed with the couple after his split from wife Linda in 2007.

INSIDERS TOLD THE ENQUIRER that the scandalous tape was the secret reason behind Heather and Bubba's February divorce, though they listed "irreconcilable differences" as the official cause.

"Bubba dumped Heather because of the sex tape," said a source, who has seen stills from the video and confirmed that the woman was Heather Clem. **He rigged up the bedroom with a hidden camera and caught them in the act**

"That was the end of the marriage." Hulk and Linda's divorce was final in 2009 after 25 years of marriage. The ENQUIRER revealed in 2008 that the flamboyant ring star had been carrying on an affair with their daughter Brooke's friend, Christiane Plante, while the family was shooting the reality show "Hogan Knows Best."

# HULK HOGAN SEX TAPE SHOCKER

Mysterious woman in video WAS HIS BEST FRIEND'S WIFE!

"Once a cheater, always a cheater," another source commented. "But to cheat with your best friend's wife? Unforgivable!"

Word of the sex tape's existence emerged when Steven Hirsch of Vivid Entertainment, an adult film company, wrote to Hulk in an attempt for permission to purchase the video.

Hulk answered through his attorney, David

Houston, who stated that Hogan had nothing to do with its creation or subsequent release. Meanwhile, Hulk is insisting that the video was made before he hooked up with current wife Jennifer, whom he married in December 2010.

Houston and Hulk both declined

to confirm that it was Heather in the video, but they did acknowledge that they knew the woman's identity.

During an October 2011 interview on Howard Stern's radio show,

Hulk talked about staying with Bubba and Heather after his divorce, and when asked if he'd consider having sex with Heather now that she's divorced from his pal, Hulk cited "Man Law" in replying: "No...you don't do

that." But a source in the celebrity sex tape industry said: "Well, he certainly did do just that!"

"I know [Heather], and it's totally her!"

Heather did not return The ENQUIRER's calls for comment, and Bubba, refusing to confirm or deny that it was his then-wife on the tape, said: "I won't make any comment until Terry (Hulk) talks about it in public."

But he insisted: "Hulk is still my friend. We're friends forever, man."

When we asked Linda Hogan what she thought of her former hubby's latest drama, she replied: "Hulk Hogan is no longer my problem."
