Web Vote-By-Mail Request Queue

To access: **Vote By Mail > Process Web Requests**

This dialog lists the Vote-By-Mail requests that voters have submitted using the Absentee/Mail Ballot Request Form on your website.

The screenshot shows a web application window titled "Web Vote-By-Mail Request Queue". It features a grid with the following columns: Request ID, Election, Date Added, and others. The grid contains approximately 20 rows of data. Below the grid, there are radio buttons for "Single and All Elections", "All Elections", and "Single Elections", and a "Max" field set to 500. The status bar at the bottom indicates "500 Records shown out of 146 of Requests (20)".

Request ID	Election	Date Added	
1420	004	2013-03-15 10:10:10	
1421	004	2013-03-15 10:10:10	
1422	004	2013-03-15 10:10:10	
1423	004	2013-03-15 10:10:10	
1424	004	2013-03-15 10:10:10	
1425	004	2013-03-15 10:10:10	
1426	004	2013-03-15 10:10:10	
1427	004	2013-03-15 10:10:10	
1428	004	2013-03-15 10:10:10	
1429	004	2013-03-15 10:10:10	
1430	004	2013-03-15 10:10:10	
1431	004	2013-03-15 10:10:10	
1432	004	2013-03-15 10:10:10	
1433	004	2013-03-15 10:10:10	
1434	004	2013-03-15 10:10:10	
1435	004	2013-03-15 10:10:10	
1436	004	2013-03-15 10:10:10	
1437	004	2013-03-15 10:10:10	
1438	004	2013-03-15 10:10:10	
1439	004	2013-03-15 10:10:10	
1440	004	2013-03-15 10:10:10	

Initially, the requests are ordered by when they were added to the queue (that is, the *Date Added* column) and respective of the filters at the bottom of the dialog.

- Select to display **Single and All Elections**, or limit the grid display to only **All Elections** or only **Single Elections**.
- Leave the default **Max** number to display in the queue, which is 500 requests, or change the selection.

Note:

- Changing the Max setting to a significantly greater number may affect the system's response time to load and also re-load (after processing a request and returning to the grid) requests.
- The system retains changes to the Max setting. The next time you return to the dialog, your last setting remains in effect.

To sort by a different column or change the sort order (ascending or descending), click any column header.

For an overview of the Process Web Requests feature, see [About Vote-By-Mail Requests Submitted Online](#). To learn how to process both single and all-elections requests, review [Process Vote-By-Mail Requests Submitted Through Your Website](#).

Note: If your county uses [Vote-By-Mail Fraud Detection](#), web requests are intercepted before they enter the queue and are not released into the queue

until the Fraud Detection program is run.

Note: to VR Tower Counties In Website Maintenance, you can create a CSV list of request submitted on the website during a specified time period. Use the list to confirm that email notifications are going to the right recipients in the elections office and to verify that web requests are entering the request queue.
